

Finding the Difference between Subscribers and Casual Riders

Cyclistic bike-share
Q1 2019

Problem:

Low Long-Term Monetization:

Casual riders generate lower margin per ride and high seasonal variance, leaving recurring annual revenue untapped

Solution:

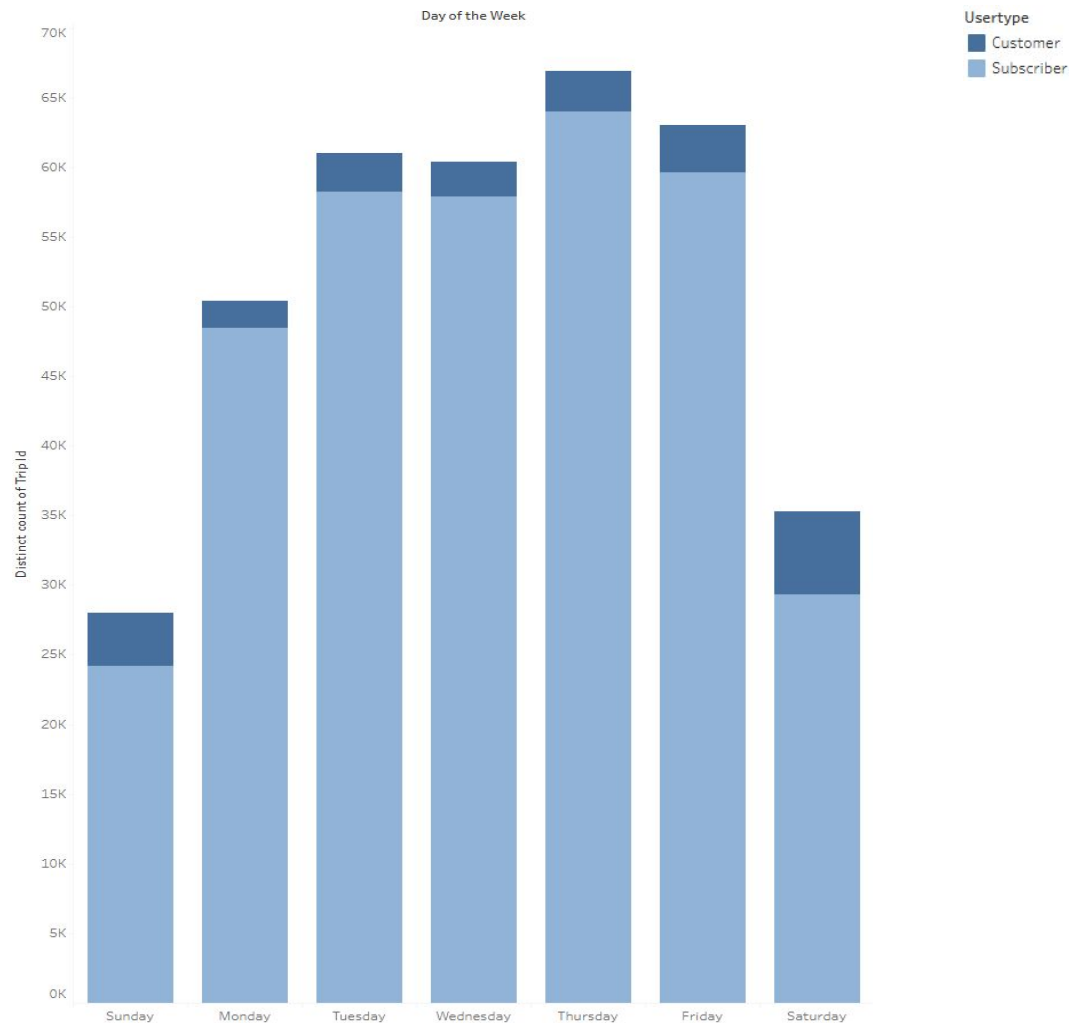

Geofenced Station Marketing:

Deploy targeted digital and physical conversion campaigns at top leisure stations heavily frequented by casual riders

Weekly Ride Patterns

Subscriber activity stays highly consistent throughout the workdays and drops on the weekends.

Casual activity surges on the weekends.

Trip Duration Disparity

4.4x

Longer Average Ride Duration

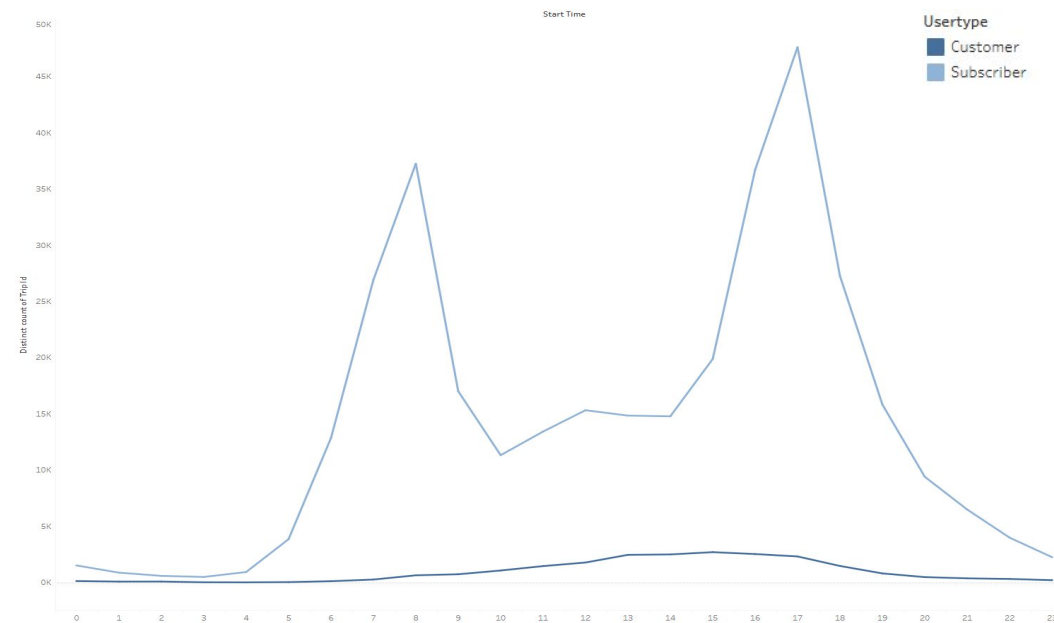

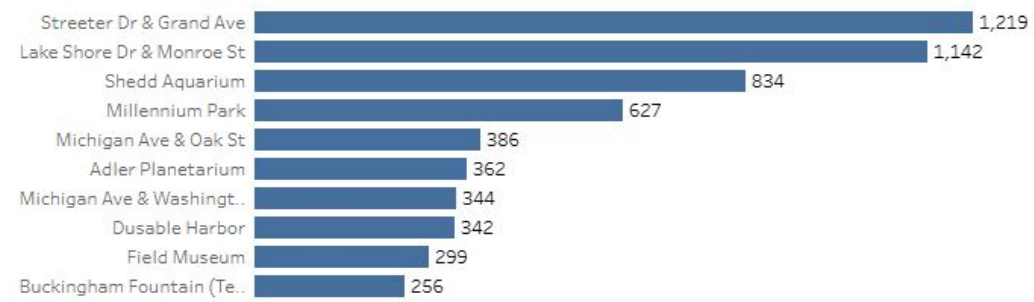

62 Min (Casual) vs. 12 Min (Subscriber)

Casual Riders average nearly 62 minutes per ride, exploring leisure routes and tourist spots around Chicago

Subscribers average 12 minutes per ride, prioritizing direct route efficiency for transportation

Casual Rider Data

Casual Riders peak during afternoon and evening hours, concentrating heavily around tourist and recreational hubs like Millennium Park and the Navy Pier.

Why Casual Riders Will Convert

Cost Savings

Frequent casual riders spending over \$30/month on single pass tickets save substantially by switching to an annual pass.

Express Access

Unlock bikes instantly without queuing at kiosk payment terminals during high-demand weekends.

Member Perks

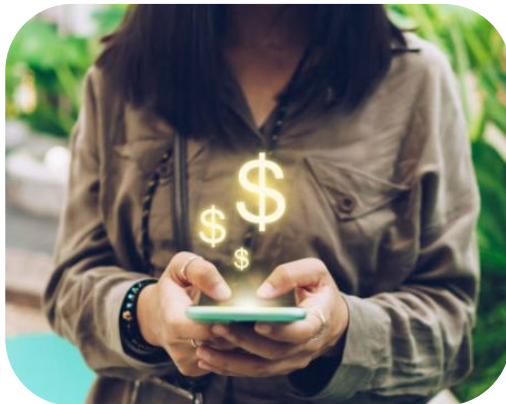

Exclusive access to bike discounts, extended ride limits, and merchandise rewards.

Conversion Solution

1. Geofenced Stations

Place physical and digital ads at high volume leisure stations

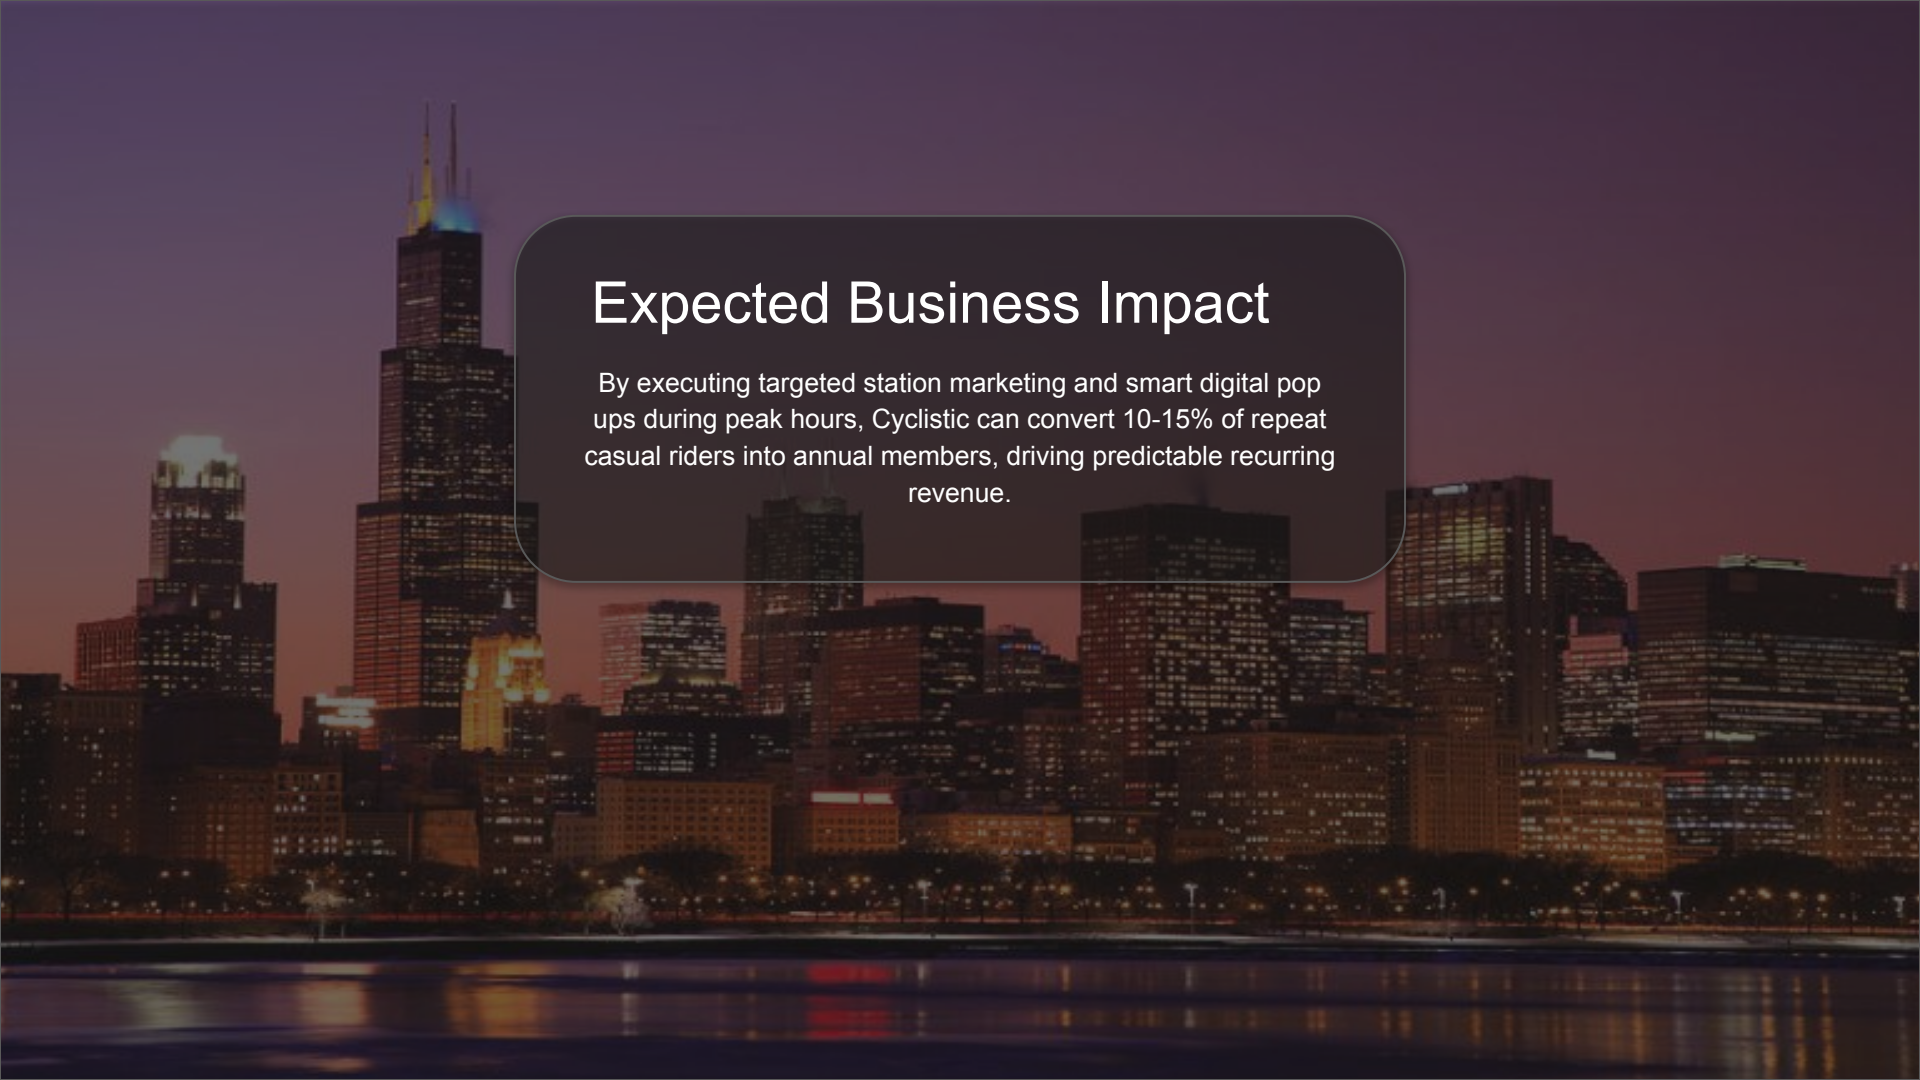

2. In-App Popups

Send automated pop-up offers showing how much you could have saved if you were a member

3. Promos

Launch seasonal promos with discounts during peak months

Expected Business Impact

By executing targeted station marketing and smart digital pop ups during peak hours, Cyclistic can convert 10-15% of repeat casual riders into annual members, driving predictable recurring revenue.
